**Overall Description:**

Summer is a time for fun; therefore, it is hands on activities with project based language therapy! Our camps are designed for students with speech, language or learning difficulties or for students who need to work on study strategies. We will utilize a fun theme, Time Travel, to integrate our lesson plans for students while we listen, speak, read, spell, and write. We will make a stop in the Medieval Period and experience dragons, swords, and knights, oh my! We will continue our travels to the industrial revolution, the Victorian era, and the roaring 20's. The children will discover the many wonders of the 1980's and finish camp imagining what the future holds. We achieve your student's goals through fun, food and building friendships.
